DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 26-44 and 46-53 are rejected under 35 U.S.C. 102(a) as being anticipated by Lamb, Sr. (5,380,180).
3. Claims 26-44 and 46-53 are rejected under 35 U.S.C. 102(b) as being anticipated by Downs et al (3,718,536) or Farley et al (4,812,283) or GB 2 004 809.
4. Claims 26-31, 33-36, 38-49, and 51-53 are rejected under 35 U.S.C. 102(b) as being anticipated by Sun (5,096,945).
5. Claims 26-47 are rejected under 35 U.S.C. 102(b) as being anticipated by Nopper et al (5,106,438) or Radvan et al (4,978,489).

Each of the above references discloses a thermoactive binder composite product. Although not made by the same process as that which is claim, they appear to be identical to the claimed product. The burden is on Applicant to provide evidence that the prior art products do not possess the same characteristics as those of the claimed product. See In re Thorpe, et al, 227 USPQ 964 (CAFC 1985).

Terminal Disclaimer

6. The terminal disclaimer filed on April 2, 2004 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of Patent No. 5,155,146 has been reviewed and is accepted. The terminal disclaimer has been recorded.

Response to Amendment

7. Applicant's arguments filed April 2, 2004 have been fully considered but they are not persuasive. Applicants assert that the prior art does not show or suggest the the claimed thermoactive binder composite with superior physical properties described in Exhibits A-D of the Rule 132 Declaration of William R. Reetz (filed May 22, 2003). Applicants' declaration is not sufficient to overcome the rejection because the declaration does not compare the claimed composite with the prior art composites which it is rejected over, i.e. those of Lamb, Downs, Farley, Sun, Nopper, Radvan and GB 2004809.

Conclusion

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any

Art Unit: 1732

extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
